

Corporate Integrity Policy

TYP SA GROUP CORPORATE INTEGRITY POLICY

The purpose of the Corporate Integrity Policy is to set out the principles and standards of good practice that reinforce and further develop the fundamental guidelines of our Code of Ethics with regard to the prevention of corruption and bribery.

The Corporate Integrity Policy provides the framework for preventing and addressing corruption, recognising that, in an increasingly globalised environment, corruption poses significant risks to our business across the jurisdictions in which we operate.

Corruption and bribery, whether in the public or private sector, are harmful practices that the TYP SA Group unequivocally rejects because of their ethical, economic, and social consequences. They undermine the objectivity and transparency of procurement and decision-making processes, distort fair competition, adversely affect the quality of projects, and erode trust in institutions and organisations, ultimately undermining public confidence and the values that support a fair and transparent society.

Against this background, the TYP SA Group actively promotes a culture of integrity and compliance at every level of the organization and adopts this Policy as an integral part of its Integrity Management System.

This Policy applies to all TYP SA Group companies, as well as to all their employees, business partners and subcontractors. It shall be reviewed periodically, at least annually, and whenever necessary as a result of regulatory, organizational, or operational changes, or following the identification of new risks or opportunities for improvement.

The TYP SA Group conducts its business in a wide range of countries and across diverse regulatory and political environments.

The TYP SA Group is committed to conducting its business with the highest standards of integrity and in strict compliance with all applicable laws and regulations, including anti-bribery laws, internationally recognised best practices, and with due respect for the cultures and customs of the countries in which it operates.

The TYP SA Group shall only undertake assignments that fall within its areas of expertise and for which it has the necessary technical and organisational capabilities to deliver effective, high-quality services.

The TYP SA Group is committed to ensuring that its communications, publications, and commercial materials are accurate, truthful, and consistent with the highest ethical standards.

CONDUCT TOWARDS THE ENGINEERING AND CONSULTING SECTOR

The TYP SA Group shall conduct its business with integrity, honesty, and fairness, respecting the legitimate business interests of others and upholding the reputation and standing of the engineering and consulting sector.

To this end, appropriate control measures shall be implemented, including contractual clauses providing for termination where evidence of such practices comes to light.

With regard to commercial advisers, the TYP SA Group shall ensure that their activities are conducted in accordance with the principles set out in this Policy and are consistent with the Group's ethical standards. Their remuneration shall always be appropriate, reasonable, and commensurate with the services provided and consistent with market rates. Through these channels, any individual may, in good faith and with full guarantees of confidentiality, anonymity (where permitted by applicable law), and protection against retaliation, report any

concern, suspicion, or information relating to actual or suspected breaches, misconduct, or other irregularities.

The TYP SA Group is committed to ensuring that all reports are handled promptly, objectively, confidentially, and in accordance with applicable laws and regulations.

The TYP SA Group is also committed to cooperating fully with any competent authority or duly constituted body legally empowered to investigate corruption where its cooperation is lawfully required.
